What to expect from Zivame?

❖ Passion

We're not just an e-commerce company, a women's wear brand or a retail organization. We are together in solving problems for millions of women in India; and that passion drives everything that we do. It's that passion that helps us do things by keeping the Indian woman front and center in all of our efforts – from Design to Technology, from Marketing to Logistics and everything in between.

❖ Bias for Action

Being an organization that is growing rapidly comes with a culture where everyone strives for creating business impact in their own roles. This strong Bias for Action is seen at every function in the organization at every level which helps us keep bureaucracy to the minimum, make quick decisions, take our ideas to action and see the impact first-hand. We also recognize great performance when we see it, not just at the annual day.

• Cross-functional Collaboration

We strive for holistic outcomes and not in silos. Work takes the shortest path possible and people work across functions, levels, experience seamlessly. That meeting could've been an email, which could've been a call, which could've been an in-person discussion. And...Action!

• Transparency

A stand-out tenet of our culture has to be the transparency that's woven into the fabric of Zivame. We discuss everything openly, have no closed offices, no colleague out-of-bounds and no hidden agenda. Our monthly townhalls, coffees with the CEO, an open feedback culture are just a few things you'll notice while working with us.
